

Adhesive Backed Media/PSA

Product	Description
DMCVLA3	A white opaque, matte cast vinyl with a permanent, pressure-sensitive adhesive perfect for mounting to rigid displays and non-uniform surfaces such as corrugated panels and rivets. Caliper: 3 mil
DMPSV-G	DMPSV-G is a 5 mil universal glossy adhesive vinyl with a permanent, pressure-sensitive adhesive to give maximum adhesion values. DMPSV-G is an opaque, glossy, calendered vinyl compatible with dye and pigmented inks. Caliper: 5 mil
DMVHA5	A high gloss, flexible and durable vinyl with a permanent, pressure-sensitive adhesive backing for indoor use only. To be used with dye inks. Caliper: 5 mil
DMVLA4	A white opaque, matte calendered vinyl with a permanent, pressure sensitive adhesive perfect for mounting to smooth surfaces. Caliper: 4 mil
DMVLA5	A white opaque, matte calendered vinyl with a permanent, pressure sensitive adhesive perfect for mounting to smooth surfaces. Caliper: 5 mil
FAB-TAC™	FAB-TAC™ is an 8 mil, 100% polyester woven fabric that has a low tack pressure sensitive adhesive that allows the product to be repositioned and reapplied countless times. This makes it ideal for flags, displays, window decorations, window backlit and wall murals. FAB-TAC has a universal coating that is compatible with most water-based thermal and piezo wide format printers using dye or pigment inks.
FAB-TAC™ by Magiclée®	FAB-TAC™ is an 8 mil, 100% polyester woven fabric that has a low tack pressure sensitive adhesive that allows the product to be repositioned and reapplied countless times. This makes it ideal for flags, displays, window decorations, window backlit and wall murals. FAB-TAC has a universal coating that is compatible with most water-based thermal and piezo wide format printers using dye or pigment inks.
Firenze 170 PSA (DMPG170PSA)	A one-side-imageable poster paper with a permanent pressure-sensitive adhesive (PSA) and a release liner. It is ideal for posters and POP displays and can be used with the newer ink systems equipped with both dye-based and pigmented ink sets. Basis Weight: 170 gsm
GFPHOTO-PSA	GFPHOTO PSA, a glossy photo realistic paper with a pressure sensitive (PSA) coating on a 1 mil clear polyester liner designed for solvent and eco-solvent ink jet printers. Caliper: 6.5 mil
LOTAK-7	A polypropylene banner with a low tack, pressure-sensitive adhesive that is repositionable, removable, and may be reapplied to some surfaces. LOTAK-7 has a universal coating compatible with most thermal and aqueous piezo printer systems. Caliper: 11.5 mil
PPM7-PSA (DMPPM7PSA)	A low-cost polypropylene banner with a permanent, pressure-sensitive adhesive. This product is ideal for short-term outdoor applications where lamination is not necessary. DMPPM7PSA has a universal coating that is compatible with most thermal and aqueous piezo printer systems equipped with dye or pigmented inks. Caliper: 11 mil
