

## Wall Covering

Product	Description
<a href="#">DMiBOP10</a>	An economical, latex-saturated nylon-reinforced cellulose, wet-strength indoor banner/outdoor poster and wallcovering material. Resists water and UV damage. Caliper: 11 mil
<a href="#">FAB-TAC™</a>	FAB-TAC™ is an 8 mil, 100% polyester woven fabric that has a low tack pressure sensitive adhesive that allows the product to be repositioned and reapplied countless times. This makes it ideal for flags, displays, window decorations, window backlit and wall murals. FAB-TAC has a universal coating that is compatible with most water-based thermal and piezo wide format printers using dye or pigment inks.
<a href="#">FAB-TAC™ by Magiclée®</a>	FAB-TAC™ is an 8 mil, 100% polyester woven fabric that has a low tack pressure sensitive adhesive that allows the product to be repositioned and reapplied countless times. This makes it ideal for flags, displays, window decorations, window backlit and wall murals. FAB-TAC has a universal coating that is compatible with most water-based thermal and piezo wide format printers using dye or pigment inks.
<a href="#">GFIOP140</a>	Latex-saturated, wet-strength paper for indoor banners, outdoor posters and wallcoverings. Caliper: 6 mil
<a href="#">GFIOP140PSA</a>	GFIOP140PSA is an indoor/outdoor durable adhesive backed paper designed to meet the demands of high production Solvent Ink Jet systems. This latex-saturated, wet strength paper features a smooth surface which offers exceptional print fidelity with a distinctive lustre finish. Strength, flexibility and durability are hallmark traits of GFIOP140PSA. The permanent pressure-sensitive adhesive makes it easy to quickly produce and mount graphics and signs for short-term indoor/outdoor applications. Caliper: 6 mil
<a href="#">GFIOP212</a>	Latex-saturated, wet-strength paper for indoor banners, outdoor posters and wallcoverings. Caliper: 9.9 mil
<a href="#">GFIOP212 EMB</a>	Magic® GFIOP212EMB is an embossed version of GFIOP212. The embossed pattern provides a texture to the paper's finishes that enhances its appearance in wallcovering and mural applications. This one-side coated paper designed for high production solvent and eco-solvent* ink jet printers. This latex-saturated, wet strength paper features exceptional print fidelity with a distinctive luster finish. Strength, flexibility and durability are hallmark traits of GFIOP. It resists cracking when folded, and film lamination is not required in most intended applications. Product passes Class A flame spread tests (ASTM E-84) as manufactured.
<a href="#">Mural Pro</a>	Mural Pro is a latex-based ink jet wallcovering media for residential, hospitality, commercial, and retail design. Mural-Pro(TM) is an economical alternative to adhesive vinyl for in-store environmental graphics. Mural-Pro results in similar print and posting performance as DMiBOP without the added costs of having nylon reinforcement. The universal coating provides a wide range of printer compatibility across thermal and piezo printer systems. Caliper: 12 mil
